

Abstract

The gaming machine has the game result display means including the reels (3L, 3C, 3R) and the liquid crystal display device (31) arranged at a more front side than a display area of the reels (3L, 3C, 3R), and the liquid
5 crystal display device (31) displays the specific image (91) over the substantially whole liquid crystal display area (2b) including the symbols display areas (21L, 21C, 21R) through which the reels (3L, 3C, 3R) can be seen and recognized.
